Re: **Lead and Copper Rule Sampling Requirements and Forms Updates - Training for Public Water Suppliers**

Dear Public Water Supplier:

The Massachusetts Department of Environmental Protection's Drinking Water Program (MassDEP/DWP) invites you to a training session on the Lead and Copper Rule (LCR) sampling requirements and forms updates.

This training will be held in each MassDEP region from **8:30 am – 12:00 pm** (see summary agenda on page 2 for locations and dates). A list of the forms to be discussed at the training with their webpage location is attached. At the end of the training, you will be given the opportunity to sign up to schedule future dates for one-on-one technical assistance with our Drinking Water Program technical assistance providers. **If you already have LCR questions and you would like addressed at the training, then please include the question(s) in your registration response.**

To register for this training opportunity, please RSVP no later than one week prior to the date of the workshop you will attend; RSVP to Program.Director-DWP@mass.gov and include "LCR Training" in the subject line. Please include your name, PWS or company, telephone number, and email address (if applicable) as well as the regional location where you will attend the training.- You will receive confirmation via email. We ask that a limit of two persons per organization attend; a waiting list for additional staff will be maintained. **Each person attending the workshop will receive 3 training contact hours (TCH).** If you have any questions, please contact the Drinking Water Program at Program.Director-DWP@mass.gov or 617-292-5770.

Sincerely,

A. M. Yvette DePeiza, Program Director
